

School Meals - We need your Support!
Registering could raise additional money for our school & once on the KCC data base a free Tablet device for your child!

It is very important to complete this form as fully as possible; as registering with us could also raise an extra **£1345 per child** for our school budget from central government, which we use to fund valuable support like extra tuition; Teaching Assistants or clubs. This additional school funding is dependent on the type of benefits that families may be in receipt of.

Even if you don't want your child to receive a Universal Free School Meal, we still need you to register so that our school receives as much extra funding as possible.

To register for your child to receive free school meals, please fully complete the simple CONFIDENTIAL form which is attached. Thank you.

How the information in the form will be used?

The information that you provide in this form is confidential to our school and will only be used to claim extra grant money. Completion of this form will help decide how much money our school receives each year.

It is VERY important that you complete all the information asked for in this CONFIDENTIAL form to help make sure our school and MOST IMPORTANTLY our children are as well funded as possible. Our Office Staff are available to offer guidance and support if necessary.

Should you be entitled to register for Benefit Related Free School Meals we will contact you in order for us to complete the online application.

Once we have confirmation that you are eligible through online registration and KCC have included you on their database your child(ren) will be entitled to a Tablet style device to support their learning at home.

Please complete your form and return to the school office
